SKILLS

Languages

Java, Python, Golang, HTML/CSS, JavaScript (React), TypeScript, SQL, C, C++, Swift

Technology

Docker, Git, Firebase, AWS (S3), Adobe Creative Suite, Figma, Tableau

PROJECTS

Recelery — Android

Mobile application that serves as a pantry management system and online marketplace

Developed for Mobile Developers of Berkeley

Nutshell — Android

Mobile social media application for empowering people to pursue independent projects

Developed for Mobile Developers of Berkeley

StyleMe — Python

Script that generates outfits based on a user's wardrobe and environmental factors

Developed for CalHacks 5.0 and won IBM's API Challenge

INTERESTS

Graphic Design, Photography, Hiking, Houseplants

EDUCATION

University of California, Berkeley — B.A. in Computer Science

Expected Graduation Date: Fall 2020

- Relevant Coursework: Data Structures, Principles & Techniques of Data Science, Algorithms, Data Visualization, Artificial Intelligence, Computer Architecture, Database Systems, Computer Security

PROFESSIONAL EXPERIENCE

Atlassian — Software Engineering Intern

Remote

May 2020 - Present

- Working on the Continuous Control Monitoring program to automate the collection of compliance data, allowing Atlassian to show an always up-to-date view of its compliance levels
- Designed and created JSON schemas to use as a base for how compliance data should be structured
- Writing automation scripts to convert, validate, and store compliance data in a S3 Bucket using Python, Jira REST API, Bitbucket Pipelines

Looker (Acquired by Google) — Software Engineering Intern

Santa Cruz, CA

Jun. 2019 - Aug. 2019

- Designed and developed a new interactive API reference documentation page with TypeScript and React.js, allowing over 100 developers the ability to learn about and try the Looker API

UC Berkeley EECS Department — CS9 Tutor

Berkeley, CA

Jan. 2019 - May 2019

- Consulted with over 100 students face-to-face to answer any questions regarding course material on C++, Python, or Java

EXTRACURRICULAR ACTIVITIES

Mobile Developers of Berkeley — Android Developer

Berkeley, CA

Jan. 2019 - Present

- Designing, building, and deploying Android applications for clients while utilizing the latest technology and industry practices

Innovative Design — Course Instructor

Berkeley, CA

May 2019 - Present

- Teaching a section of DES INV 98/198, a University of California, Berkeley sponsored course, on the usage of Adobe Illustrator and Photoshop to approximately 30 students
- Developing course curriculum and design demonstrations to supplement learning material

UC Berkeley Phi Beta Lambda — Vice President of Technology

Berkeley, CA

May 2019 - Dec. 2019

- Developed internal tools that are used to increase efficiency and productivity for the organization of approximately 80 students
- Designed and led workshops on professional development and industry skills to a group of approximately 50 students
